

Friendship Room – Television Screen Use Directions

1. Plug HDMI cord into television (port on left side).
2. Plug other end of HDMI cord into laptop.
3. Use remote or button on TV to turn on television.
4. Use remote or button on TV to adjust component to HDMI1 or HDMI2 (depending on which is being used).
5. Television screen should now show laptop screen.
6. When done, please put all components back as they were found.

Troubleshooting:

1. On laptop, go to “Control Panel” and select “Adjust Screen Resolution”.
2. The window should show 2 displays (one disabled).
3. Click on the disabled display and choose “Extend desktop on this monitor” and click “Apply”.
